

WELCOME TO RASCAL TRAINING

**Radiation Protection Code
Analysis & Maintenance
Program (RAMP)**

INSTRUCTORS

George Athey

Athey Consulting

Jeff Kowalczyk

US Nuclear Regulatory Commission
Office of Nuclear Security and Incident Response

WHO IS TAKING THE CLASS?

Please introduce yourself.

- **What role do you serve in your organization?**
- **Do you have any previous RASCAL experience?**
- **What do you want to get out of the course?**
- **Are there any specific topics you would like us to cover?**

WHAT THE CLASS “IS” AND “IS NOT”

- It is an introduction to using the latest version of the RASCAL software
- You will get hands-on experience, primarily with the Source Term to Dose model running nuclear power plant scenarios
- It is not a class in the technical details of the RASCAL methods (although we do touch on some)
- It is not a class in health physics or emergency response

COURSE OUTLINE

- Background
- Technology Review
- Using STDose
- Training Problems
